01

Brand story

The idea: one line that keeps looping

One line that keeps looping.

The Web Academy mark is a single unbroken line folded into a W . loop. Continue its lines and the loop completes into a fingerprint.

```
while (learning) {
  build ();
  ship ();
}
```

A loop

In code a loop keeps running until the job is done. The W is one continuous line folded into a loop the way programming is learned: learn, build, ship, repeat. This is the idea the brand leads with.

A fingerprint, completed

Inspired by the fingerprint: the arch and the loop are two of its three basic patterns arch, loop and whorl. When the lines continue around the W, the shape completes into a fingerprint a quiet nod to identity and security.

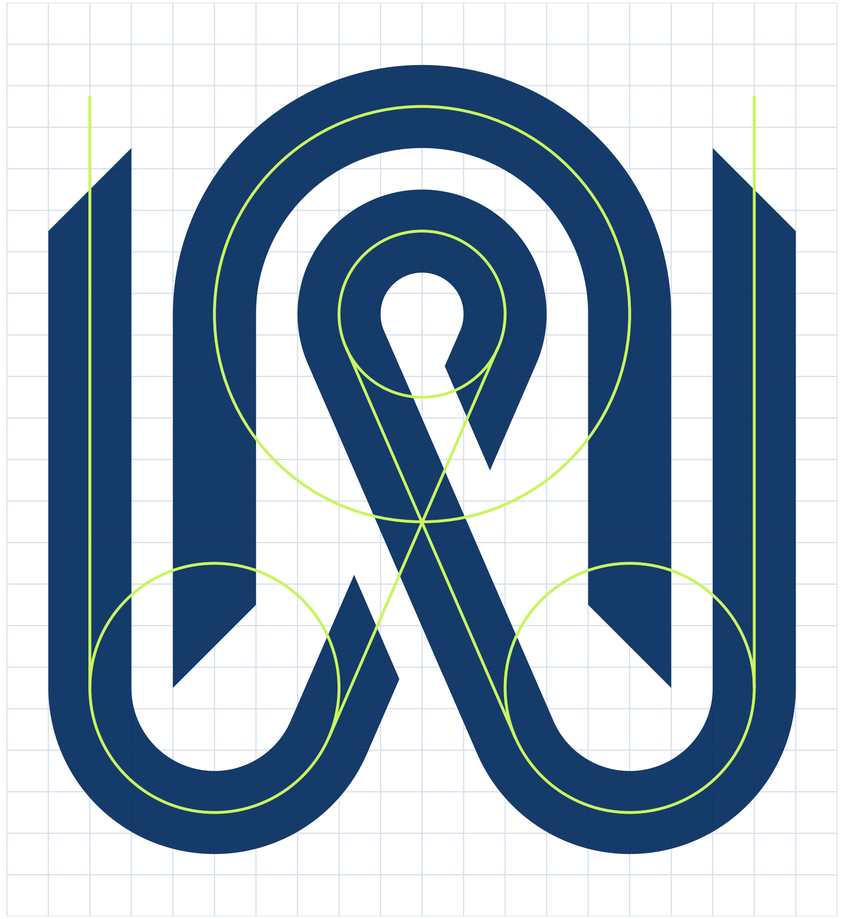

The world

The ring that holds the icon is the world in the tagline. Web Academy exists to teach it the ring frames the mark wherever it stands alone.

Typography

Lexend / Alexandria / JetBrains Mono / Hierarchy

Headline typeface

أبجد

Milan Display

A sharp, calligraphic display Arabic with modern cuts. Milan sets headlines only: one short line per design, never body copy or anything under 48 px.

Graphic elements

Loop line / Ridges / Dot grid / Code devices

Graphic elements

Loop line

The W’s single line, unrolled into one continuous looping stroke with round ends. Lime on navy, navy on white. Social posts, stories, merch, website, motion.

Ridges

Arches at the logo’s own spacing radiating from the W: the loop completes into a fingerprint. Keep it for trust moments certificates, letterhead, back covers, security content. Never fill.

Dot grid

A quiet editor texture for dark grounds: small dots on a regular pitch. Use behind headlines and code, never on light grounds.
